### JANUARY LIFE SKILL

This month, we will learn more about tattling vs. telling. Telling is getting an adult involved to get someone OUT of trouble. It is notifying an adult that someone did something on purpose or something that is dangerous. Telling is when adult help is needed. Tattling is getting someone IN trouble. If something happened on accident or it was harmless, or if it can be solved without help, you probably don't need to report it.

### MATH

The lessons in math this week will focus on the numbers 36-39. We will also review numbers that come after and before, grouping items into 10 to count, positional words, and telling time to the hour.

This week we will read from **BIBLE** Matthew 2:1-12 about the Wise Men. We will talk about the strange gifts that the men brought baby Jesus. As we take a deep dive into these gifts, we will see that they were actually appropriate for Jesus, the Jesus who would die for us. We will also learn about the star they followed and will have a little science demonstration of Bernoulli's Principle.
