

CLASSROOM NEWS

Week of April 15-19, 2024

Reading:

This week, we will learn about the nk sound and review the digraphs that we have been working on. Our lessons in math will be about telling time, and so we will read a springy book called Bunny Day and another book called The Very Grouchy Ladybug. The illustrated decodables that kindergarten scholars will be reading are Stink in the Bank and The Ship Dock.

Show & Tell:

This week, I challenge you to find something that ends with nk or any objects that have any of the following digraphs in them...wh, ph, ng, ck, sh, th, or ch. Your child may also bring in a time telling device. ☺

Math:

We will be learning about time this week. We will review time to the hour, on analog clocks and digitally. We will talk about times of day and what takes longer.

Bible Lesson:

Jesus Ascends to Heaven: Acts 1:6-11)

Jesus says He will always be with us and He will take us to live with Him in heaven forever. This news is so good that we want to share it! And Jesus helps us to share His love and promises through the gift of the Holy Spirit.

When Jesus ascended into heaven after appearing to the disciples many times over 40 days, He promised them He would always be with them in spirit, and He gave them a job to do..tell the world about Him. He had shown them He was alive and had conquered sin and death. Such good news.

Important Dates:

April 12 Report Cards go home
April 24 and 25th OPTIONAL Parent Teacher Conferences
April 26 Kindergarten leads chapel

I need your help. Mother's Day and Father's Day are coming near. In kindergarten, we like to make a special keepsake for moms and dads but it has increased in price...Would you be willing to send in \$15 to \$20 per child to help me cover the cost? Thank you if you have already done this!
